Purpose and description of processing, storage period, legal basis, recipient

The purpose of the processing of your data is the fulfilment of a contract or the implementation of pre-contractual measures. Your personal data will be deleted or blocked as soon as the purpose of storage no longer applies. Art. 6 para. 1 lit. b DSGVO serves as the legal basis for the processing of personal data.

If we disclose data to other companies within the scope of our processing, this is done based on a legal permission, if the persons concerned have consented or a legal obligation provides for this. Data will not be transferred to third countries.

There is no automated decision making, including profiling, and there are no plans to do so in the future.

Rights concerned

You can obtain **information** about your stored personal data at any time (Art. 15 DSGVO) and request its **correction** (Art. 16 DSGVO), **deletion** (Art. 17 DSGVO) or **restriction of processing** (Art. 18 DSGVO). You also have the right, subject to certain conditions, to receive the personal data relating to you that you have provided in a structured, common and machine-readable format and to make it available to another responsible person (**data transferability),** provided that this does not affect the rights and freedoms of other persons. As far as this is technically feasible, Jünger+Gräter GmbH also transmits the data directly to the other responsible parties. They also have the right to appeal to a supervisory authority:
